Raft River Rural Electric offers an incentive when you replace qualifying bi-metal line-voltage thermostats in an existing single-family home with electric resistance zonal heat (baseboards or wall heaters) with line-voltage electronic thermostats.

To receive your rebate, simply follow these steps:

- Step 1: Purchase and install qualifying thermostat(s) and apply for the rebate within 3 months of purchase.
- Step 2: Provide us with a copy of your invoice, listing the manufacturer, model number, type, size, and quantity of your thermostat(s). **Incentive cannot be processed without this information.**

Measure Description

Requirements and Specifications of the Thermostat:

- Have a digital display
- Be electrical line-voltage type
- Have a thermistor temperature sensing element that is accurate to within 1.5° or better
- Be UL- or CSA- listed for use with their application (i.e. fan-forced, baseboard, wall or ceiling radiant)
- Programmable thermostats must maintain temperature and program settings during power failure and have a temporary override feature.
- Provide an itemized invoice showing manufacturer, model number, type, size, quantity, order/purchase date and cost.

Per Unit: \$16.00

Quantity:

Date Installed: _____

TOTAL REBATE AMOUNT REQUESTED: \$0.00

I certify that the thermostat(s) purchased have been installed in the Raft River Electric service territory. I understand that my purchase must qualify under the program guidelines listed above to be eligible for this rebate. Rebate amount(s) and measure(s) are subject to change. Processing of rebate application may take 45 days and will be denied if the application is not completed with all necessary information. I will allow a representative of Raft River Electric to verify installation.
